

**SPECIFICATIONS**

|                                   |  |
|-----------------------------------|--|
| <b>Model</b>                      | 9032C  |
| <b>Mode</b>                       | DCV/ ACV/ IR/ GB/ LC                                 |
| <b>Withstanding Voltage Test</b>  |  |
| <b>Output Voltage</b>             | DC : 0.05~6kV , AC : 0.05~5kV                        |
| <b>Load Regulation</b>            | 1%+5V  |
| <b>Voltage Resolution</b>         | 2V   |
| <b>Voltage Accuracy</b>           | 1%+5counts   |
| <b>Cutoff Current</b>             | DC : 20mA , AC : 40mA                                |
| <b>Current Resolution</b>         | 0.1 $\mu$ A  |
| <b>Current Accuracy</b>           | 1%+5counts   |
| <b>Output Frequency</b>           | 50Hz/60Hz  |
| <b>Test Time</b>                  | 0.3~999sec, continue                                 |
| <b>Ramp up Time</b>               | 0.3~99.9sec, off                                     |
| <b>Waveform</b>                   | Sine wave  |
| <b>Insulation Resistance Test</b> |  |
| <b>Output Voltage</b>             | DC : 0.05~1kV  |
| <b>Voltage Resolution</b>         | 2V   |
| <b>Voltage Accuracy</b>           | 5%+5V  |
| <b>IR Range</b>                   | 1M $\Omega$ ~50G $\Omega$                            |
| <b>Resistance Resolution</b>      | 0.1M $\Omega$  |
| <b>Resistance Accuracy</b>        | 5% typical   |
| <b>Ground Resistance Test</b>     |  |
| <b>Output Current</b>             | AC : 1~30A   |
| <b>Current Resolution</b>         | 10mA   |
| <b>Current Accuracy</b>           | 1%+ 5counts  |
| <b>GR Range</b>                   | 0~510m $\Omega$                                      |
| <b>Resistance Resolution</b>      | 0.1m $\Omega$  |
| <b>Resistance Accuracy</b>        | 1%+ 5counts  |
| <b>Test Method</b>                | 4 wire measure                                       |
| <b>Offset Function</b>            | 0~100m $\Omega$                                      |
| <b>Arc Detection</b>              |  |
| <b>Setting Mode</b>               | Programmable setting                                 |
| <b>Detection Current</b>          | 1~40mA   |
| <b>Minimum Pulse Width</b>        | 10 $\mu$ s approx.                                   |
| <b>Secure Protection Function</b> |  |
| <b>Fast Output Cut-Off</b>        | 0.4ms after NG happen                                |
| <b>Fast DC Discharge</b>          | 0.2 sec  |
| <b>Panel Operation Lock</b>       | Present password                                     |
| <b>Power on Data Rally</b>        | Yes  |
| <b>Reset Protection Key</b>       | Yes  |
| <b>Watch-dog</b>                  | 1 sec  |
| <b>GO/NG Judgment</b>             |  |
| <b>Indication, Alarm</b>          | GO: short sound; NG: HI, LOW, ARC NG with long sound |
| <b>Data Hold</b>                  | Least tests data memories                            |
| <b>Step Hold</b>                  | Step signal trigger ON/OFF                           |
| <b>Memory Storage</b>             | 10 steps with 50 groups recall                       |

|  |   |
|--|---|
| <b>Model</b>                                       | 9032C   |
| <b>Remote Connector</b>                            |   |
| <b>Rear Panel 9 pin</b>                            | Input: Start, Stop, Interlock(at 11 pin terminal block only), |
| <b>D-type Connector</b>                            | Output: Under test, Pass, Fail                                |
| <b>Dynamic HV Leakage Current Scanner (Option)</b> |   |
| <b>Mode</b>  | LC / VA   |
| <b>Leakage Current</b>                             |   |
| <b>Input Characteristic</b>                        | DC - 1 MHz  |
| <b>Input Impedance</b>                             | 1 M $\Omega$ // 20 pF   |
| <b>DUT Input Power Capacity</b>                    | AC : 300 V / 10 A Max.  |
| <b>Short Protection</b>                            | 10 A / 250 V Fuse   |
| <b>Current Range</b>                               | 0.1 ~ 590 $\mu$ A / 500 ~ 6000 $\mu$ A                        |
| <b>Current Resolution</b>                          | 0.2 $\mu$ A / 2 $\mu$ A                                       |
| <b>Current Accuracy</b>                            | 2 % + 5 counts (DC - 5 kHz)                                   |
| <b>Measurement Mode</b>                            |   |
| <b>Measurement Mode</b>                            | Normal, Reverse, Single fault normal, Single fault reverse    |
| <b>Measurement Devices</b>                         |   |
| UL544 NP   | Medical Appliances & Equipment                                |
| UL544 P  | Medical Appliances & Equipment                                |
| UL1563   | Electrical Equipment & Component                              |
| UL2601, IEC601-1, EN60601-1                        | Medical Appliances & Equipment                                |
| UL3101, UL1950, UL950, IEC1010, IEC950, EN60950    | Experiment & Information Equipment                            |
| 5 different kinds human body RC network            |   |
| <b>Voltage Meter</b>                               |   |
| <b>Voltage Range</b>                               | 0 ~ 300 V   |
| <b>Voltage Accuracy</b>                            | 1.5 % + 5 counts  |
| <b>Current Meter</b>                               |   |
| <b>Current Range</b>                               | 0.1 ~ 10 A  |
| <b>Current Accuracy</b>                            | 1.5 % + 5 counts  |
| <b>HI-LO Limit</b>                                 |   |
| <b>LC HI-LO Limit</b>                              | 0 ~ 6.000 mA  |
| <b>Current HI-LO Limit</b>                         | 0 ~ 9.999 A   |
| <b>VA HI-LO Limit</b>                              | 0 ~ 2200 VA   |
| <b>VA Resolution</b>                               | 0.1 VA  |
| <b>General</b>                                     |   |
| <b>Operation Environment</b>                       | Temperature : 0~40°C<br>Humidity : $\leq$ 80%RH               |
| <b>Power Consumption</b>                           | No load : <100W<br>With rated load : >650W                    |
| <b>Power Requirements</b>                          | 100V/120V/220V/240V<br>50/60Hz                                |
| <b>Weight</b>                                      | 22kg  |
| <b>Dimension(W×H×D)</b>                            | 430 × 133 × 470 mm  |
